

The Flying Grass Carpet

The Flying Grass Carpet

Hop on board the *Flying Grass Carpet* and join it in its quest for adventure and urban leisure. HUNK-design and Studio ID Eddy have designed the *Flying Grass Carpet*; it's an instant park that can be unfolded in any city. This way bringing a unique experience of fun and relaxation that can be shared worldwide.

The *Flying Grass Carpet* is designed to look like an immense Persian rug with its pattern executed in different types of artificial grass, giving it a typical look and touch. The design consists of different parts that can be adjusted to any location. The size of the *Flying Grass Carpet* can be altered from 18 by 22 meters to 25 by 36 meters.

Landed in a city the *Flying Grass Carpet* is ideal for all kinds of events. As with ordinary parks, people can lie down on the grass or play ball with their friends. But its attractive appearance is also perfect for special events. It's an excellent spot to have a Frisbee tournament, a city picnic and all sorts of contests and performances.

Now that city centres all over the world are rapidly being privatized, the public domain is under pressure and is losing its quality. The *Flying Grass Carpet* delivers a beautiful alternative for city dwellers to enjoy the city. It brings instant cosiness and a green leisure feeling to any city where it lands. The combination of green, beauty and activity makes the *Flying Grass Carpet* irresistible!

The *Flying Grass Carpet* is a unique, temporary, and fun park that can be placed anywhere. It's designed to look like a gigantic Persian rug with the different patterns executed in different types of artificial grass. The carpet will bring people together while it brings them a piece of instant green into their city life. It offers opportunities to relax, to play, to picnic and all sorts of events.

Like in fairytales the *Flying Grass Carpet* travels from one city to the next and connects different cities and their citizens with each other. A worldwide shared public domain is created.

If you would like to party on the *Flying Grass Carpet* in your hometown please contact us.
